## EMPLOYMENT

**Research Assistant Professor**, Department of Environmental & Forest Biology, SUNY-ESF

Aug 2019-present

**Assistant Professor**, Department of Plants Soils & Climate and the Ecology Center

Utah State University, 2016-2019

**Post-Doctoral Researcher**, Department of Forest Ecosystems & Society

Oregon State University, 2014-2016

**Post-Doctoral Researcher**, Department of Integrative Biology, University of California, Berkeley; Department of Biology & Southern Oregon University; Biology Department, 2011-2014

**Post-Doctoral Researcher**, Department of Wood Science and Engineering

Oregon State University, 2009-2011

## EDUCATION

**Oregon State University**, Corvallis, OR

Ph.D., Forest Science & Wood Science, *Co-Advisors*: Barbara Lachenbruch and Frederick Meinzer

*Dissertation title*: Functional decreases in hydraulic and mechanical properties of field-grown transgenic poplar trees caused by modification of the lignin synthesis pathway through downregulation of the 4-coumarate:

coenzyme A ligase gene. September 2004 – June 2009

**University of Missouri**, Columbia, MO

M.S., Forestry, *Co-Advisors*: Rose-Marie Muzika and Richard Guyette

*Thesis title*: Causes of forest decline and consequences for oak-pine stand dynamics in southeastern Missouri.

January 2002 – August 2004

**University of Wisconsin-Stevens Point**, Stevens Point, WI

B.S., Forest Management. *Faculty Advisors*: Jan Harms and James Cook

*Senior Project*: Vegetation of Powers Bluff County Park: A Report to Wood County Parks and Forestry, Wisconsin Rapids, WI. September 1997 – May 2001

## PEER-REVIEWED PUBLICATIONS

**h-index: 20**

**i10-index: 27**

**Mentoring: \*graduate student, \*\*undergraduate student, \*\*\*visiting scientist**

**JIF = Journal Impact Factor**

38. Chavarie L, SL **Voelker**, MJ Hansen, CR Bronte, AM Muir, MS Zimmerman and CC Krueger. 2021. Temporal instability of lake trout phenotypes: synchronicity of growth rates and morphology linked to environmental variables? *Evolutionary Applications*. <https://doi.org/10.1111/eva.13188>.

Development and application of a paleoclimate proxy for spring temperatures in central North America: did low temperatures limit tree physiological function during the Younger-Dryas? EGU, Vienna, Austria, April 2011.

Meinzer FC, KA McCulloh, J Sperry, B Lachenbruch, SL **Voelker**, DR Woodruff, J-C Domec. Comparative hydraulic architecture of early and late successional tropical species. ESA, Austin, TX, August 2011.

### TEACHING & MENTORING

**Instructor:** EFB 120, Global Environment and the Evolution of Human Society, ESF Undergrad course,

**Instructor:** EFB 340, Forest and Shade Tree Pathology, ESF Undergraduate course

**Instructor:** PSC 2700, Climate Change Impacts, USU Undergraduate course

**Instructor:** PSC 6900, Dendrochronology and Dendroclimatology, USU Graduate course

**Instructor:** Introduction to Environmental Science, OSU Undergraduate course

**Primary Advisor:** Cody Dangerfield, M.S. student, USU, Plants, Soils and Climate Dept., Aug 2018-Oct 2020

**Primary Advisor:** Rachel Keen, M.S. student, USU, Plants, Soils and Climate Dept., Jan 2017-May 2019

**Co-advisor:** Jessika Carlstrom, M.S. student, USU, Dept. of Wildland Resources, Aug 2016-Jun 2018

**Committee member:** Lissa Pelletier, M.S. student, SUNY-ESF, SRM Dept., Aug 2018-

**Committee member:** Jared Williams, M.S. student, SUNY-ESF, SRM Dept., Aug 2018-

**Committee member:** Adam Fisher, M.S. student, USU, Dept. of Watershed Sciences: Aug 2017-Sep 2019

**Committee member:** Yu-Tang Chien, M.S. student, Plants, Soils and Climate Dept., Jan 2018-Jun 2019

Responsible for mentoring >30 technicians in field and laboratory skills, data analyses and scientific writing.

Guest lecturer in >10 classes

Assistant instructor at the NSF-funded 16<sup>th</sup> Annual North American Dendroecological Fieldweek, June 2006.

Teaching assistant for 7 courses between 1999 and 2005: *Wood Anatomy*, OSU, 2005.

### MEMBERSHIP

American Geophysical Union

Tree-Ring Society

Ecological Society of America

Society of American Foresters

International Association of Vegetation Science

### FUNDED PROPOSALS [Career total = \$1,522,845]

Grant funded by NSF Division of Atmospheric and Geospace Sciences, Paleo Perspectives on Climate Change Program, *Collaborative Research: Winter Climate Anomalies across North America: Benchmarking Instrumental Trends and Model Projections with High Resolution Paleoclimatology*. Award: \$504,060 to USU and \$190,287 to the U. of Minnesota, 2019-2021. Co-PI's: SL **Voelker**, SYS Wang and D Griffin.

## STEVEN L. VOELKER, PH.D.

---

Grant funded by the Save The Redwoods League. *A quantitative assessment of historic impacts to redwood forest health by the construction of Freeway 101 through Humboldt Redwoods State Park.* Award: \$25,000, 2017, Co-PIs: SL **Voelker**, CA Lee.

Grant funded by the Utah Agricultural Experimental Station. *Development of Tree-Ring Isotope Records of Growing Season Temperature and Multi-Proxy Records of Winter Precipitation to Improve Hydroclimatic Projections for the Intermountain West.* Five-year project with an annual budget of \$10,000. PI: SL **Voelker**

Grant funded by the Huron Mountain Wildlife Foundation for collection of tree cores and netting of Lake Trout to obtain otolith-based growth rates. *Insights on Synchronous Temperature Responses of Lake Trout and Trees at the Huron Mountain Club.* Award: \$3,520, 2017, Co-PIs: SL **Voelker**, L. Chavarie, A. Muir.

Sub-award from NSF Macrosystems Grant to Jim Ehleringer, Gabe Bowen et al. for ITCE: Inter-university Training for Continental-scale Ecology. Awarded to Co-PIs TE Dawson, CJ Still and SL **Voelker** for project entitled: *Drought, Isotopes & Ecosystem Resilience in the West: DrIER-W.* Award: \$47,254, 2017.

Grant funded from the USDA Forest Service, Forest Health Monitoring Program, “*Investigating Causes of Bishop Pine (Pinus muricata D. Don) Mortality on California’s North Coast.*” Co-PIs: SL **Voelker** and C Lee. 2-year budget: \$115,724 (\$56,556 from USFS and \$59,168 matching funds from California Department of Forestry and Fire Protection).

Grant funded by the Huron Mountain Wildlife Foundation for travel and tree core collection. *Do tree growth responses to climate change differ among boreal forest species within the lake effect zone of Lake Superior.* Award: \$2,000, 2015, PI: SL **Voelker**.

Grant funded by the University of Wisconsin Department of Botany, *Tree-ring collection and leaf gas exchange measurements at Turkey Lakes Watershed.* Award: \$5,000, 2015, Co-PIs: KA McCulloh and SL **Voelker**.

Grant funded by the Swiss Needle Cast Cooperative, *Test for the effect of Swiss Needle Cast on tree carbohydrate reserves.* Award: \$10,000, 2012-2013. Co-PI’s: \*BJ Saffell, FC Meinzer, DR Woodruff and SL **Voelker**.

Grant funded by the Swiss Needle Cast Cooperative, *Use of tree-ring stable isotopes to test for the effect of fog on Swiss Needle Cast infection severity.* Award: \$10,000, 2012-2013. Co-PI’s: \*BJ Saffell, SL Voelker and FC Meinzer.

Grant funded by NSF, Division of Environmental Biology, Ecosystems Cluster, *Collaborative Research: Testing tree carbon capture from paleo to present.* Award: \$560,000 to OSU and the U. of Missouri, 2009-2012. Co-PI’s: SL **Voelker**, B Lachenbruch, FC Meinzer, JR Brooks, RP Guyette.

### PROPOSALS PENDING

None.

### SERVICE & SYNERGISTIC ACTIVITIES

**Invited contributor** to a new book including more than 100 authors with an aim at a global synthesis of knowledge and state of the art methods being applied in the field of Tree-Ring Stable Isotopes. I helped correspond with the editors at the initial organization stages of the book to identify potential authors, am co-authoring three chapters and will be reviewing other chapters. This book is being published by Springer, as part of their series on Tree Physiology. It should be Published in 2021.

**Invited contributor** to ICOFEST: *Integrating CO<sub>2</sub> Fertilization Evidence Streams and Theory* a meeting of 60 participants who are disciplinary experts on CO<sub>2</sub>-fertilization effects on vegetation productivity and storage and

## STEVEN L. VOELKER, PH.D.

---

the Global Carbon Sink. The goal of this group is to synthesize current evidence, theory and knowledge gaps across scientific fields – and thereby set a research agenda for the field and produce at least one comprehensive and state-of-the-art review paper on CO<sub>2</sub> fertilization and additional papers reviewing evidence within disciplines. (September 2018, Biosphere II, Oracle, AZ; Sponsors DOE and Oak Ridge National Laboratory).

**Peer-reviewer** for >30 journals (alphabetical order; journals I most frequently review for are underlined):

*Agricultural and Forest Meteorology*; *American Midland Naturalist*; *Biogeosciences Discussions*; *Biomass & Bioenergy*; *Canadian Journal of Forest Research*; *Dendrochronologia*; *Ecological Monographs*; *Ecology*; *Environmental Research Letters*; *Forest Ecology and Management*; *Geophysical Research Letters*; *Functional Ecology*; *Global Change Biology*; *Global Ecology and Biogeography*; *Hydrological Processes*; *Journal of Ecology*; *Journal of Geophysical Research: Atmospheres*; *Journal of Geophysical Research: Biogeosciences*; *Journal of Snow and Landscape Research*; *Natural Areas Journal*; *Nature Communications*; *Nature GeoScience*; *New Phytologist*; *Northern Journal of Applied Forestry*; *Oecologia*; *Plant Cell*; *Plant, Cell & Environment*; *Proceedings of the National Academy of Sciences USA*; *Remote Sensing of Environment*; *Science of the Total Environment*; *Scientific Reports*; *Tree Physiology*; *Trees-Structure & Function*

**Proposal Ad-Hoc Reviewer or Panel Member:**

USDA NIFA AFRI Physiology of Agricultural Plants Panel Member (2021)

US National Science Foundation DEB Program, Population and Community Cluster (2021) [1 proposal]

National Science Foundation Paleo Perspectives on Climate Change program (2020) [1 proposal]

European Research Council Advanced Grants Program (2019)

Swiss National Science Foundation (2018)

US National Science Foundation Paleo Perspectives on Climate Change program (2020) [1 proposal]

US National Science Foundation Paleo Perspectives on Climate Change program (2018) [2 proposals]

US National Science Foundation Paleo Perspectives on Climate Change program (2017) [2 proposals]

US NOAA / Minnesota Sea Grant (2017)

**Awarded** 2020 Manier Award and \$1000 honorarium from the Huron Mt. Wildlife Foundation for best scientific paper that utilized Huron Mt. Club lands.

**Co-organizer** of AGU session *Forests in the Anthropocene: trading water for carbon from the leaf to ecosystem*, 2016.

**Awarded** visiting scholar fellowship to train at the University of Arizona Tree-Ring Laboratory, 2010.

**Contributor** of 38 tree-ring data collections to the International Tree-Ring Data Bank managed by NOAA, <https://www.ncdc.noaa.gov/data-access/paleoclimatology-data/datasets/tree-ring>. Many more contributions are forthcoming.

**Contributor** to a large data set of tree-ring carbon isotopes analyzed as part of a meta-analysis (Lavergne et al. 2020) that is available here: <https://nph.onlinelibrary.wiley.com/doi/full/10.1111/nph.16314>
